Team & Mission

Our team is committed to showcasing quality visual and performing arts that inspire, teach culture & promote positive change. The artists that are negatively influencing the youth are given multi-million dollar campaigns and support from labels and sponsors to ensure their message is reaching the masses. There must be an economic platform to support our positive presentation of the arts so that we are seen as a valuable asset to our communities; with the ability to transform minds & promote a focused, positive & thriving culture. We specialize in creating this content by way of music, videos, visual art, performances, workshops, lectures & more. With the collective help and support from your organization we can continue this campaign with even greater success.

The CGX Overview

Just FM 365.com presents to you The CGX (Creative Group Experience). The CGX is an all encompassing artistic stage production and workshop that involve live painting, singing, dancing, emceeing, poetry & improv---all in 60 min or less. The CGX workshop provides an enriching cultural experience that can be shared with family & friends of all ages & from all walks of life. We are cultural expression, & we share this All Year Round.

We would like to have your support in promoting & sustaining positive visual and performing arts. Our Communities & Youth are being attacked by way of negative music, videos & other advertisements that are planting the seeds of ignorance. We see this displayed through violence, sexual irresponsibility, drug use and confusing media messages throughout our communities.
